**Investment Objective and Policy**

The Sub-Fund's investment objective is to provide capital growth and income over the medium to long-term, by investing primarily in units or shares of UCITS or other UCIs, providing exposure to a conservative global asset allocation portfolio.

In order to achieve its objective, the Sub-Fund invests primarily in a diversified portfolio of mutual funds, including ETFs, managed by leading international asset managers, which mainly invest in: (a) euro-denominated bonds, (b) money market instruments and deposits, (c) European equities.

The Sub-Fund is actively managed. Our investment process is based on the assessment of quantitative and qualitative criteria, with the purpose of selecting individual funds. These criteria evaluate parameters such as historical returns, volatility, stability of outperformance, behavior in different environments, structure and composition of management team, investment strategy and procedures, risk management policy, etc.

Furthermore, the Sub-Fund applies certain ESG criteria in order to define an eligible universe of underlying funds that has leading ESG ratings and tilt the portfolio in favour of strong sustainability performers. This is mainly implemented through a combination of exclusion/negative screening and positive/best-in-class screening.
