## What is this product?

### Type

The Sub-Fund is part of the Alpha (LUX) Global Funds (hereafter "the Fund") which is an undertaking for collective investment in transferable securities (a "UCITS") in the form of a common fund ("fonds commun de placement") "umbrella fund" type subject to Part I of the Law of 17 December 2010 on undertakings for collective investment.

### Term

The Sub-Fund has an indefinite duration and is terminated in accordance with the specific provisions set out in article 14 of the Prospectus.

### Objectives

The Sub-Fund aims to achieve a medium / long term capital growth by providing a conservative, balanced investment exposure to various asset classes including equities, bonds and cash. The Sub-Fund invests primarily in units of UCITS and/or other UCIs, including ETFs, which mainly invest in a) equity securities and derivative b) transferable debt securities and derivatives and c) bank deposits and/or money market instruments. Furthermore, as part of its investment strategy, the Sub-Fund applies certain Environmental, Social, and Governance (hereafter, ESG) criteria in order to define an eligible universe of underlying funds that has leading ESG ratings and tilt the portfolio in favour of strong sustainability performers. This is mainly implemented through a combination of negative screening (exclusion criteria) at the "asset manager" and "underlying fund" level and positive screening /best-in-class MSCI ESG Fund rating at "underlying fund" level. The Sub-Fund promotes environmental and social characteristics and qualifies as product in accordance with article 8 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR"). The Sub-Fund can invest up to 100% in units of UCITS and other UCIs within the limits stipulated in the investment restrictions. The Sub-Fund may use exchange traded financial derivative instruments for hedging purposes in order to reduce the impact of market movements, credit risks, currency fluctuations, interest rate risks and for the purpose of efficient portfolio management.

**Benchmark:** 50% Bloomberg Euro Aggregate Bond Total Return Index, 20% MSCI All Country World Price Return USD Index, 30% Barclays Benchmark Overnight EUR Cash Index. The Sub-Fund is actively managed and is not designed to track the Benchmark. Consequently, Sub-Fund's portfolio composition and performance may deviate materially from benchmark composition and performance. The benchmarks' performance is calculated in the Sub-Fund's Unit Class currency. Therefore, when the relevant benchmark has a different currency than the Sub-Fund's Unit Class, its performance will be converted into the currency of the correspondent Sub-Fund's Unit Class. Incorporation of ESG criteria in the Sub-Fund's investment strategy is not implemented with a reference to its benchmark or a designated index, sustainability index or mainstream index.

The Units of the Sub-Fund are accumulating Units.

The reference currency of the Sub-Fund: EUR.

The investor can subscribe or redeem units of the Sub-Fund on a daily basis (banking days in Luxembourg).

The "Alpha (LUX) Global Defensive ESG FoF" Sub-Fund is exposed to market risk arising from fluctuations in the portfolio's market value, attributed to market movements. The Sub-Fund is exposed to credit risk arising from the underlying assets of the funds in which the Sub Fund invests. The Sub-Fund is also exposed to liquidity risk, the risk that may arise, if a position of the Sub-Fund's portfolio cannot be liquidated at a limited cost within a reasonable period of time, as a result of which it becomes difficult for the Sub-Fund to comply with the obligations to satisfy the redemption requests. In more detail, the risks associated with the Sub-Fund are presented in the next section "What are the risks and what could I get in return?"

### Intended institutional investor

To investors with a medium to long investment horizon, two years minimum (recommended holding period) and a low to medium risk profile who seek gains through a diversified portfolio.

You may exchange units of the Sub-Fund for units of other Sub-Funds of the Company in accordance with the Fund's Prospectus.

## What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. On a risk scale 1 to 7, we have classified the Sub-Fund at 2 which is a "low" risk class. This classification rates at a "low" level the potential losses from the Sub-Fund's future performance and poor market conditions are very unlikely to have an impact on the capacity of the Sub-Fund, legally represented, to pay you through its Depositary. Other relevant risks of the Sub-Fund not included in the summary risk indicator are issuer credit risk (the risk of a bond issuer or money market instrument to default on its obligations), liquidity risk, the risk that may arise, if a position of the Sub-Fund's portfolio cannot be liquidated at a limited cost within a reasonable period of time, as a result of which it becomes difficult for the Sub-Fund to comply with the obligations to satisfy the redemption requests, operational risk, the risk of loss for the Sub-Fund that may arise from human errors or omissions, process errors, system failures or external events, including risks related to the custody of the Sub-Fund's assets and sustainability risk, an environmental, social or governance event or condition that, if it occurs, could cause a negative material impact on the value of the investment of UCITS. The Sub-Fund does not include any protection from future market performance so you could lose some or all of your investment.

### Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, the average, and the best performance of the Sub-Fund over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:	2 years	If you exit after 1 year	If you exit after 2 years
Example Investment:	10.000 EUR		
<b>Scenarios</b>			

<b>Minimum</b>	You could lose some or all of your investment		
	What you might get back after costs	8.990 €	9.250 €
<b>Stress</b>	Average return of each year	-10,1%	-3,8%
	What you might get back after costs	9.630 €	9.280 €
<b>Unfavourable</b>	Average return of each year	-3,7%	-3,7%
	What you might get back after costs	9.950 €	9.890 €
<b>Moderate</b>	Average return of each year	-0,5%	-0,5%
	What you might get back after costs	10.080 €	10.170 €
<b>Favourable</b>	Average return of each year	0,8%	0,8%

The figures shown include all the costs of the Sub-Fund itself as well as the distribution costs you may pay to your distributor. It may not include your advisor's costs. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between November 2020 and November 2022. The moderate scenario occurred for an investment between July 2018 and July 2020 and the favourable between February 2016 and January 2018.

### What happens if the Company is unable to pay out?

The Depositary ensures that the Sub-Fund's assets are kept separate from their own assets as well as those of its other clients without being affected in the event of default of the Company's payments. There is no compensation or guarantee system for investors.

### What are the costs?

The person advising on or selling you this product in the context of providing investment services, may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

#### Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Unit Class and how well the Sub-Fund does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

#### We have assumed

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Sub-Fund performs as shown in the moderate scenario
- 10.000 EUR is invested.

	If you exit after 1 year	If you exit after 2 years
<b>Total costs</b>	79 €	158 €
<b>Annual cost impact (*)</b>	0,8%	0,8% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 0,3% before costs and -0,5% after costs.

### Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
<b>Entry costs</b>	No entry fee is charged In case of conversion into unit of another class or another sub-fund, no conversion fee is charged but unitholders may be requested to bear the difference in entry costs if higher	<b>0 EUR</b>
<b>Exit costs</b>	0,00 % of your investment before it is paid out to you	<b>0 EUR</b>
Ongoing costs taken each year		
<b>Management fees and other administrative or operating costs</b>	0,79 % of the value of your investment per year This is an estimate based on actual costs over the last year	<b>78 EUR</b>
<b>Transaction costs</b>	0,01 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell	<b>1 EUR</b>
Incidental costs taken under specific conditions		
<b>Performance fees</b>	There is no performance fee for this Sub-Fund	<b>0 EUR</b>

### How long should I hold it and can I take money out early?

#### Recommended holding period: 2 years

The Sub-Fund has no minimum required holding period. Although there is not a minimum required holding period, it is recommended for investors willing to maintain their investment in the Sub-Fund for 2 years (recommended holding period or RHP). This RHP is chosen based on an assessment of the asset mix risk, reward profile and costs of the Sub-Fund. You have the option to redeem part or all of your investment any business day in Luxembourg with the respective redemption fee (if any). The redemption of Sub-Fund's units is mandatory when requested by the unitholder in accordance with the specific provisions set out in articles 5.4 and 17.1.8 of the Prospectus.

### How can I complain?
