

Investment Objective and Policy

The Fund's objective is to achieve a total return in line with money market rates, while maintaining an emphasis on preservation of capital and liquidity. It has no currency exposure other than EUR.

In order to achieve its objective, the Fund invests primarily in Greek Treasury Bills, short-term Greek Government Bonds and deposits with domestic credit institutions.

The Fund may invest in money market instruments with a residual maturity until the legal redemption date of less than or equal to 2 years, provided that the time remaining until the next interest rate reset date is 397 days or less. The Fund's portfolio is to have at all times a weighted average maturity of no more than 6 months and a weighted average life of no more than 12 months.

The Fund may not invest in corporate bonds, securitizations and asset-backed commercial paper (ABCPs).

The Fund invests in money market instruments for which, according to Article 10 (3) of Regulation (EU) 2017/1131, it is not necessary for the management company to establish and implement an internal credit quality assessment procedure. In particular, the Fund invests in money market instruments only if they are issued or guaranteed by the Union, a central authority or central bank of a Member State, the European Central Bank, the European Investment Bank, the European Stability Mechanism or the European Financial Stability Facility.

The Fund is not a guaranteed investment and the risk of loss of the principal is borne by the investor. An investment in the Fund is different from an investment in deposits and the principal invested in the Fund is capable of fluctuation. The Fund does not rely on external support for guaranteeing its liquidity or stabilizing its NAV per unit.
