ALPHA ASSET
MANAGEMENT MFMC.

The Fund invests in money market instruments for which, according to Article 10 (3) of Regulation (EU) 2017/1131, it is not necessary for the management company to establish and implement an internal credit quality assessment procedure. In particular, the Fund invests in money market instruments only if they are issued or guaranteed by the Union, a central authority or central bank of a Member State, the European Central Bank, the European Investment Bank, the European Stability Mechanism or the European Financial Stability Facility.

The Fund is not a guaranteed investment and the risk of loss of the principal is borne by the investor. An investment in the Fund is different from an investment in deposits and the principal invested in the Fund is capable of fluctuation. The Fund does not rely on external support for guaranteeing its liquidity or stabilizing its NAV per unit.

“Weighted Average Maturity” or “WAM” means the average length of time to legal maturity or, if shorter, to the next interest rate reset to a money market rate, of all of the underlying assets in the MMF reflecting the relative holdings in each asset. “Weighted Average Life” or “WAL” means the average length of time to legal maturity of all of the underlying assets in the MMF reflecting the relative holdings in each asset.
