

Investment Objective and Policy

The Fund's investment objective is to provide capital growth and income over the long-term, by investing primarily in units or shares of UCITS or other UCIs, providing exposure to the U.S. equity market.

In order to achieve its objective, the Fund invests primarily in a diversified portfolio of equity mutual funds, managed by leading international asset managers, which mainly invest in U.S. equities.

The Fund is actively managed. Our investment process is based on the assessment of quantitative and qualitative criteria, with the purpose of selecting individual funds. These criteria evaluate parameters such as historical returns, volatility, stability of outperformance, behavior in different environments, structure and composition of management team, investment strategy and procedures, risk management policy, etc.

Moreover, the Fund applies certain ESG (Environmental, Social, Governance) criteria to define a suitable range of underlying UCITS with top ESG ratings and drive the portfolio towards the ones with strong sustainability performance.
