What is this product?

Type

The Fund is a form of Collective investment in transferable securities (“UCITS”), as defined by the provisions of Law 4099/2012 and the Directive 2009/65/EC as applicable. The Fund has no legal form, constitutes a group of assets that is composed of securities, money market instruments and cash, the individual elements of which belong to more than one unitholder, based on the number of units they own, is managed by the Company which represents the unitholders both judicially and extrajudicially, for legal relationships arising from the management and their rights over its assets.

Term

The Fund has a term of two (2) years until 2026 and is terminated in case any of the conditions referred to in article 9 par. 1 of Law 4099/2012 are met and in accordance with article 11 of the Fund’s Regulation.

Objectives

The Fund’s investment objective is to provide income generation and capital gain, while seeking to preserve capital of unitholders who will retain their holdings over the predetermined investment horizon of two (2) years, investing mainly in euro-denominated bonds. In order to achieve its objective, the Fund will invest in a bond portfolio, which will be fully liquidated by April 29, 2026 (hereafter “Maturity Date”). The Fund’s portfolio will have a weighted average maturity (remaining time duration) of approximately two (2) years at the inception, investing in bonds with maturity of one and a half (1.5) to three and a half (3.5) years, to be held until their maturity or be liquidated by the Fund’s “Maturity Date”. The bonds in the portfolio maturing before the “Maturity Date” will be replaced by bonds or money market instruments with a maturity as close as possible to the remaining time duration until the “Maturity Date”. The Fund invests primarily in euro-denominated bonds, issued by companies, states and supranational or public institutions, as well as other securities, money market instruments and deposits with credit institutions. The portfolio may include non-investment grade bonds, Greek government bonds, as well as bonds issued by companies with registered office, operations or exposure in Greece.

Benchmark: There is no reference to benchmark.

Income generated by the Fund may be reinvested.

The reference currency of the Fund is EUR.

The investor can subscribe or redeem units of the Fund, during business days and hours in Greece according to the opening hours of Alpha Bank branches, unless there is a relevant decision of the Hellenic Capital Market Commission to suspend redemptions.

The “ALPHA TARGET MATURITY VII 2026 BOND FUND” is exposed to market risk arising from fluctuations in the portfolio’s market value, attributed to market movements. The Fund is exposed to credit risk arising from the possibility that the obligor might be unable to meet its obligations to a UCITS. The Fund is also exposed to liquidity risk, the risk that certain assets of the Fund cannot be liquidated at the desired time or at a limited cost, in order for the Fund to comply at all times with its redemption obligations. In more detail, the risks associated with the Fund are presented in the next section “What are the risks and what could I get in return?”

Intended retail investor

To investors with an investment horizon of two years (recommended holding period) and a balanced investment profile who wish to achieve income and capital appreciation by investing in a Greek-oriented bond portfolio, which will be fully liquidated by April 29, 2026.

What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. On a risk scale 1 to 7, we have classified the Fund at 2 which is a “low” risk class. This classification rates at a “low” level the potential losses from future performance of the Fund and poor market conditions are very unlikely to have an impact on the capacity of the Fund, legally represented, to pay you through its Depositary. Other relevant risks of the Fund not included in the summary risk indicator are issuer credit risk (the risk of a bond issuer(s) to meet its/their obligations, resulting the Fund to be unable to retrieve part of its investment), liquidity risk, the risk that certain assets of the Fund cannot be liquidated at the desired time or at a limited cost, in order for the Fund to comply at all times with its redemption obligations and operational risk, the risk of loss for the Fund that may arise from human errors or omissions, process errors, system failures or external events, including risks related to the custody of the Fund’s assets. The Fund does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period: 2 years		If you exit after 1 year	If you exit after 2 years
Example Investment: 10.000 EUR			
Scenarios			
Minimum	You could lose some or all of your investment		
	What you might get back after costs	9.130 €	9.980 €
Stress	Average return of each year	-8,7%	-0,1%
	What you might get back after costs	9.970 €	10.380 €
Unfavourable	Average return of each year	-0,3%	1,9%
	What you might get back after costs	10.090 €	10.640 €
Moderate	Average return of each year	0,9%	3,1%
	What you might get back after costs	10.220 €	10.910 €
Favourable	Average return of each year	2,2%	4,4%

The figures shown include all the costs of the Fund itself as well as the distribution costs you may pay to your distributor. It may not include your advisor’s costs. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable, moderate and favourable scenarios shown are illustrations and are derived from the analysis of 10,000 scenarios of the Fund’s value.

What happens if the Company is unable to pay out?

The Depositary ensures that the Fund’s assets are kept separate from their own assets as well as those of its other clients without being affected in the event of default of the Company’s payments. There is no compensation or guarantee system for investors.

What are the costs?

The person advising on or selling you this product in the context of providing investment services, may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, the holding period and the Fund’s performance. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Fund performs as shown in the moderate scenario
- 10.000 EUR is invested.

	If you exit after 1 year	If you exit after 2 years
Total costs	384 €	366 €
Annual cost impact (*)	3,8%	1,8% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 4,9% before costs and 3,1% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	0,25 % of the amount you pay in when entering this investment	25 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 2 years

The Fund has no minimum required holding period. Although there is not a minimum required holding period, it is recommended for investors to maintain their investment for 2 years (recommended holding period or RHP). This RHP is chosen based on an assessment of the asset mix risk, reward profile and costs of the Fund. You have the option to redeem part or all of your investment, any business day with the respective redemption fee (if any). The redemption of Fund's units is mandatory when requested by the unitholder in accordance with the specific provisions set out in article 7 of the Fund's Regulation.
