What is this product?

Type

The Fund is a form of Collective investment in transferable securities (“UCITS”), as defined by the provisions of Law 4099/2012 and the Directive 2009/65/EC as applicable. The Fund has no legal form, constitutes a group of assets that is composed of securities, money market instruments and cash, the individual elements of which belong to more than one unitholder, based on the number of units they own, is managed by the Company which represents the unitholders both judicially and extrajudicially, for legal relationships arising from the management and their rights over its assets.

Term

The Fund has an indefinite duration and is terminated in case any of the conditions referred to in article 9 par. 1 of Law 4099/2012 are met and in accordance with article 11 of the Fund’s Regulation.

Objectives

The Fund aims to achieve a total return from capital appreciation and income over the long-term, by investing primarily in Greek equities listed on the Athens Exchange. In order to achieve its objective, the Fund invests at least 65% of its net assets in a diversified portfolio of shares listed on the Athens Exchange, with an emphasis on equities of companies with qualitative characteristics, which are expected to show long term an increasing rate of dividends, as well as comparatively attractive dividend yields. The portfolio includes equities issued by companies operating in all sectors or regions. Secondly, the Fund may invest in units or shares of UCITS or other collective investment undertakings up to 10% of its net assets, in deposits with credit institutions, securities and money market instruments (such as bills) and may hold cash and cash equivalents. The Fund may use derivative financial instruments for the purpose of its investment objective and/or hedging risks. The use of derivatives may affect, positively or negatively, its performance.

Benchmark: There is no reference to benchmark.

Income generated by the Fund may be reinvested.

The reference currency of the Fund is EUR.

The investor can subscribe or redeem units of the Fund, during business days and hours in Greece according to the opening hours of Alpha Bank branches, unless there is a relevant decision of the Hellenic Capital Market Commission to suspend redemptions.

The “ALPHA GREEK EQUITY QUALITY INCOME FUND” is exposed to market risk arising from fluctuations in the portfolio’s market value, attributed to market movements. The Fund is also exposed to liquidity risk, the risk that certain assets of the Fund cannot be liquidated at the desired time or at a limited cost, in order for the Fund to comply at all times with its redemption obligations. In more detail, the risks associated with the Fund are presented in the next section “What are the risks and what could I get in return?”

Intended retail investor

To investors with a long-term investment horizon, six years minimum (recommended holding period), who wish to gain exposure to a diversified portfolio of shares listed on the Athens Exchange, with qualitative characteristics, which are expected to show long term an increasing rate of dividends, as well as comparatively attractive dividend yields, assuming the appropriate investment risk.

What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. On a risk scale 1 to 7, we have classified the Fund at 5 which is a “medium-high” risk class. This classification rates at a “medium-high” level the potential losses from future performance of the Fund and poor market conditions are very unlikely to have an impact on the capacity of the Fund, legally represented, to pay you through its Depositary. Other relevant risks of the Fund not included in the summary risk indicator are liquidity risk, the risk that certain assets of the Fund cannot be liquidated at the desired time or at a limited cost, in order for the Fund to comply at all times with its redemption obligations and operational risk, the risk of loss for the Fund that may arise from human errors or omissions, process errors, system failures or external events, including risks related to the custody of the Fund’s assets. The Fund does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, the average, and the best performance of the Fund over the last 11 years. Markets could develop very differently in the future.

Recommended holding period: 6 years		If you exit after 1 year	If you exit after 6 years
Example Investment: 10.000 EUR			
Scenarios			
Minimum	You could lose some or all of your investment		
	What you might get back after costs	700 €	1.560 €
Stress	Average return of each year	-93,0%	-26,7%
	What you might get back after costs	8.150 €	3.270 €
Unfavourable	Average return of each year	-18,5%	-17,0%
	What you might get back after costs	10.120 €	12.030 €
Moderate	Average return of each year	1,2%	3,1%
	What you might get back after costs	10.980 €	19.590 €
Favourable	Average return of each year	9,8%	11,9%

The figures shown include all the costs of the Fund itself as well as the distribution costs you may pay to your distributor. It may not include your advisor’s costs. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable scenario occurred for an investment between March 2014 and April 2020. The moderate scenario occurred for an investment between November 2016 and November 2022 and the favourable scenario between January 2019 and January 2025.

What happens if the Company is unable to pay out?

The Depositary ensures that the Fund’s assets are kept separate from their own assets as well as those of its other clients without being affected in the event of default of the Company’s payments. There is no compensation or guarantee system for investors.

What are the costs?

The person advising on or selling you this product in the context of providing investment services, may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, the holding period and the Fund’s performance. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Fund performs as shown in the moderate scenario
- 10.000 EUR is invested.

	If you exit after 1 year	If you exit after 6 years
Total costs	527 €	2.693 €
Annual cost impact (*)	5,3%	3,7% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 6,8% before costs and 3,1% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	1,00 % of the amount you pay in when entering this investment	100 EUR
Exit costs	1,00 % of your investment before it is paid out to you An escalating, up to zero, exit cost applies. More information is available in the Fund's Prospectus.	96 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	3,19 % of the value of your investment per year This is an estimate based on actual costs over the last year	316 EUR
Transaction costs	0,21 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell	20 EUR
Incidental costs taken under specific conditions		
Performance fees	They are not applicable	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 6 years

The Fund has no minimum required holding period. Although there is not a minimum required holding period, it is recommended for investors to maintain their investment for 6 years (recommended holding period or RHP). This RHP is chosen based on an assessment of the asset mix risk, reward profile and costs of the Fund. You have the option to redeem part or all of your investment, any business day with the respective redemption fee (if any). The redemption of Fund's units is mandatory when requested by the unitholder in accordance with the specific provisions set out in article 7 of the Fund's Regulation.

How can I complain?

In case you wish to file complaints with respect to the Fund or the Company's or the person that offers advice with respect to the Fund or the person selling you units of the Fund, you may address to the Company or Alpha Bank branches, either electronically at <https://www.alphamutual.gr/en/contact-us> and email at info@alphaasset.gr, or call at +30 210 3266505 (Alpha Asset Management M.F.M.C.), or send a fax at +30 210 326 6506, or via post using the address Panepistimiou 45, 105 64 Athens (Company head office) and all Alpha Bank branches (main distributor).

Other relevant Information

Possible reviews or updates in the key information documents for investors are available on the website www.alphamutual.gr. Any additional information documents can be provided only upon your request. There is insufficient data to provide a useful indication of past performance.
