

Investment Objective and Policy

The purpose of the Mutual Fund is the preservation of capital until 10.10.2030, while simultaneously offering income and capital appreciation. To achieve this objective, it invests in bonds, money market instruments, and derivatives with bond or equity exposure.

The fund's performance is linked to the EURO iSTOXX® 50 Futures Roll TR Decrement 5% index. If, on any of the five annual anniversary dates (2026–2030), the index performance relative to its level on 10.10.2025 is ≥5% ("Lock-in Threshold"), the capital "locks in" a predetermined total return, depending on the year in which the threshold is first met:

10.10.2026: 2% per year for 5 years (total 10%)

10.10.2027: 3.125% per year for 4 years (total 12.5%)

10.10.2028: 5% per year for 3 years (total 15%)

10.10.2029: 8.75% per year for 2 years (total 17.5%)

10.10.2030: 20% total at maturity

If the Lock-in Threshold is not reached by 2030, the return will be 0%.

The bond portfolio and derivatives help hedge interest rate, credit, and currency risks, as well as facilitate the reinvestment of bonds.

Fund Information

Domicile	Greece
Fund Type	UCITS
Category	Structured Fund
SFDR Classification	Article 6
Inception Date	30.07.2025
