

ALPHA MULTI-ASSET PROTECT 85 STRUCTURED FUND

31 March 2025

Investment Objective and Policy

The Fund's objective is to provide total return from income and capital growth over the medium to long term. In order to achieve its objective, the Fund has entered into an OTC derivative ("Swap"), with the aim of providing exposure to a global balanced portfolio ("Investment Portfolio"), while protecting 85% of the Fund's highest net asset value achieved since launch of the Fund. The "Investment Portfolio" is actively managed and does not track a benchmark. The counterparty of the "Swap", through an algorithm, allocates the assets between the "Investment Portfolio" and cash ("Protection Portfolio"), in order to achieve the aforementioned "Protection Level". In certain, less favourable, market conditions where the "Investment Portfolio" is experiencing a negative performance, the Fund's exposure to the "Investment Portfolio" can be reduced to zero, thus ensuring that the "Protection Level" will not be violated. In these circumstances, the "Swap" will be terminated, and the Fund will not be able to benefit from a future market recovery.

Fund Information

Domicile	Greece
Fund Type	UCITS
Category	Structured Fund
SFDR Classification	Article 6
Inception Date	15.07.2021
Base Currency	Euro
