You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type

The Fund is a form of Collective investment in transferable securities ("UCITS"), as defined by the provisions of Law 4099/2012 and the Directive 2009/65/EC as applicable. The Fund has no legal form, constitutes a group of assets that is composed of securities, money market instruments and cash, the individual elements of which belong to more than one unitholder, based on the number of units they own, is managed by the Company which represents the unitholders both judicially and extrajudicially, for legal relationships arising from the management and their rights over its assets.

Term

The Fund has an indefinite duration and is terminated in case any of the conditions referred to in article 9 par. 1 of Law 4099/2012 are met and in accordance with article 11 of the Fund's Regulation.

Objectives

The Fund's investment objective is to provide, to the Fund unitholders that have subscribed up to 24.07.2026 and retain their units up to 24.07.2031 (hereafter "Investment Period"), a capital preservation while seeking to generate income and capital gains. In order to achieve its objective, the Fund will invest in a bond portfolio and/or OTC derivatives with bond exposure (hereafter "Bond-Linked Swap Contracts"), money market instruments, other securities and in one or more OTC derivative contracts with equity exposure (hereafter "Equity-Linked Swap Contracts"). The Fund seeks to offer a predetermined total return, provided that, on any of the five annual anniversaries from the start date (e.g. 24.07.2027, 24.07.2028, etc.), the return of each of the equity indices "S&P 500 Futures (Fed Funds) 5% Decrement Index (USD) TR" and "EURO iSTOXX® 50 Futures Roll TR Decrement 5%" (hereafter the "Indices"), considered individually, in relation to their respective levels on 24.07.2026, is greater than or equal to a percentage of 10% (hereafter the "Lock Limit").

This objective is achieved through a strategy of combining investments in (a) a portfolio of bonds (directly or through "Bond-Linked Swap Contracts"), money market instruments and other securities denominated in Euro, provided that there are no negative developments in the bond market such as a hypothetical credit event involving a default on the bonds, money market instruments and other securities in the portfolio. Through the "Bond-Linked Swap Contracts", the Fund may (i) hedge the risks associated with the reinvestment of bonds maturing before 24.07.2031, (ii) hedge other risks associated with its bond exposure (e.g. interest rate, credit, currency) and/or (iii) acquire indirect bond exposure to fulfill its investment objective. (b) "Equity-Linked Swap Contracts" with a five (5) year term, with the aim of receiving payments in accordance with the following mechanism:

- if, on the 1st annual anniversary (24.07.2027), the return of each of the Indices, considered individually, is greater than or equal to the Lock Limit, it will receive annual payments of 4.00% for the next five (5) years, i.e. a total of 20.00%, and no subsequent scenario will be considered, otherwise,
- if, on the 2nd annual anniversary (24.07.2028), the return of each of the Indices, considered individually, is greater than or equal to the Lock Limit, it will receive annual payments of 5.00% for the next four (4) years, i.e. a total of 20.00%, and no subsequent scenario will be considered, otherwise,
- if, on the 3rd annual anniversary (24.07.2029), the return of each of the Indices, considered individually, is greater than or equal to the Lock Limit, it will receive annual payments of 6.667% for the next three (3) years, i.e. a total of 20.00%, and no subsequent scenario will be considered, otherwise,
- if, on the 4th annual anniversary (24.07.2030), the return of each of the Indices, considered individually, is greater than or equal to the Lock Limit, it will receive annual payments of 10.00% for the next two (2) years, i.e. a total of 20.00%, and no subsequent scenario will be considered, otherwise,
- if, on the 5th annual anniversary (24.07.2031), the return of each of the Indices, considered individually, is greater than or equal to the Lock Limit, it will receive an annual payment of 20.00% at the end of the Investment Period, otherwise,
- if, on the 5th annual anniversary (24.07.2031), the return of one or both Indices is less than the Lock Limit, it will receive a return of 0.00%.

The return of the Indices on each annual anniversary is calculated for each Index individually, as (Index Price on the annual anniversary / Index Price on 24.07.2026) – 1.

The total return of the Fund on 24.07.2031 depends on both the return of the portfolio of bonds, money market instruments and other securities and the return received through its participation in the "Equity-Linked Swap Contracts". Therefore, the total return to the unitholder on 24.07.2031 may be higher or lower than the above targeted returns that the Fund will receive from the portfolio of bonds, money market instruments and other securities and from its participation in the "Equity-Linked Swap Contracts".

The "S&P 500 Futures (Fed Funds) 5% Decrement Index (USD) TR" Index aims to replicate, through the use of futures contracts, the performance of the U.S. equity index S&P 500 (Net Total Return), minus a fixed rate of 3% per annum (decrement). The reference currency of the Index is the U.S. Dollar.

The "EURO iSTOXX® 50 Futures Roll TR Decrement 5%" Index aims to replicate, through the use of futures contracts, the performance of the European equity index EURO STOXX 50 (Net Total Return), minus a fixed rate of 5% per annum (decrement). The reference currency of the Index is Euro.

The Fund may use derivative financial instruments for the purpose of its investment objective and/or hedging risks. The use of derivatives may affect, positively or negatively, its performance.

Income generated by the Fund may be reinvested.

The reference currency of the Fund is EUR.

The Fund's performance is determined daily based on the valuation of all of its assets, both its portfolio of bonds, money market instruments and other securities, as well as its "Bond/Equity-Linked Swap Contracts". The counterparties with whom the "Bond/Equity-Linked Swap Contracts" have been concluded shall be obliged to value these contracts on a daily basis. The investor can subscribe or redeem units of the Fund, during business days and hours in Greece according to the opening hours of Alpha Bank branches, unless there is a relevant decision of the Hellenic Capital Market Commission to suspend redemptions.

The "ALPHA PROSPERITY V STEP-UP STRUCTURED FUND" is exposed to market risk arising from fluctuations in the portfolio's market value, attributed to market movements. The Fund is exposed to credit risk arising from the possibility that the obligor might be unable to meet its obligations to a UCITS. The

Fund is also exposed to liquidity risk, the risk that certain assets of the Fund cannot be liquidated at the desired time or at a limited cost, in order for the Fund to comply at all times with its redemption obligations. In more detail, the risks associated with the Fund are presented in the next section “What are the risks and what could I get in return?”.

Intended retail investor

To investors with a medium-term investment horizon, five years minimum (recommended holding period) and a conservative investment profile who wish to achieve regular income and/or capital appreciation through participation in a predetermined investment strategy, while seeking protection of the invested capital if the return is not activated.

What are the risks and what could I get in return?

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. On a risk scale 1 to 7, we have classified the Fund at 3 which is a “medium-low” risk class. This classification rates at a “medium-low” level the potential losses from future performance of the Fund and poor market conditions are very unlikely to have an impact on the capacity of the Fund, legally represented, to pay you through its Depository. Other relevant risks of the Fund not included in the summary risk indicator are issuer credit risk (the risk of a bond issuer(s) to meet its/their obligations, resulting the Fund to be unable to retrieve part of its investment), counterparty risk arising from the possibility of default on the terms of the "Bond/Equity-Linked Swap Contracts", liquidity risk, the risk that certain assets of the Fund cannot be liquidated at the desired time or at a limited cost, in order for the Fund to comply at all times with its redemption obligations and operational risk, the risk of loss for the Fund that may arise from human errors or omissions, process errors, system failures or external events, including risks related to the custody of the Fund’s assets. In case the predetermined return is not activated, it seeks to offer protection on the invested capital and a zero return. However, this protection against future market performance will not apply if (a) the investor cashes in before maturity, (b) there is a credit event either from the issuers of the bonds included in the portfolio or the counterparty to the “Bond/Equity-Linked Swap Contracts”, (c) the income of the bond portfolio does not fully cover all of the Fund’s costs.

Performance Scenarios

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:	5 years	If you exit after 1 year	If you exit after 5 years
Example Investment:	10.000 EUR		
Scenarios			
Minimum	You could lose some or all of your investment.		
Stress	What you might get back after costs	8.010 €	5.090 €
	Average return of each year	-19,9%	-12,7%
Unfavourable	What you might get back after costs	9.290 €	8.300 €
	Average return of each year	-7,1%	-3,7%
Moderate	What you might get back after costs	9.590 €	11.820 €
	Average return of each year	-4,1%	3,4%
Favourable	What you might get back after costs	10.300 €	13.900 €
	Average return of each year	3,0%	6,8%

The figures shown include all the costs of the Fund itself as well as the distribution costs you may pay to your distributor. It may not include your advisor’s costs. The figures do not take into account your personal tax situation, which may also affect how much you get back. The stress scenario shows what you might get back in extreme market circumstances. The unfavourable, moderate and favourable scenarios shown are illustrations and are derived from the analysis of 10,000 scenarios of the Fund's value.

What happens if the Company is unable to pay out?

The Depository ensures that the Fund’s assets are kept separate from their own assets as well as those of its other clients without being affected in the event of default of the Company’s payments. There is no compensation or guarantee system for investors.

What are the costs?

The person advising on or selling you this product in the context of providing investment services may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, the holding period and the Fund's performance. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the Fund performs as shown in the moderate scenario
- 10.000 EUR is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	730 €	2.487 €
Annual cost impact (*)	7,3%	4,1% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 7,5% before costs and 3,4% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	2,00 % of the amount you pay in when entering this investment during the launch period (22/06/2026 to 24/07/2026). No investments are made in the Fund after 24/07/2026.	200 EUR
Exit costs	2,00 % of your investment before it is paid out to you	189 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	3,44 % of the value of your investment per year, including the cost of swap contracts. This is an estimate based on actual costs over the last year	343 EUR
Transaction costs	0,09 % of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell	9 EUR
Incidental costs taken under specific conditions		
Performance fees	They are not applicable	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The Fund has no minimum required holding period. Although there is not a minimum required holding period, it is recommended for investors to maintain their investment for 5 years (recommended holding period or RHP). This RHP is chosen based on an assessment of the asset mix risk, reward profile and costs of the Fund. You have the option to redeem part or all of your investment, any business day with the respective redemption fee (if any). The redemption of Fund's units is mandatory when requested by the unitholder in accordance with the specific provisions set out in article 7 of the Fund's Regulation.

How can I complain?

In case you wish to file complaints with respect to the Fund or the Company's or the person that offers advice with respect to the Fund or the person selling you units of the Fund, you may address to the Company or Alpha Bank branches, either electronically at <https://www.alphamutual.gr/en/contact-us> and email at info@alphaasset.gr, or call at +30 210 3266505 (Alpha Asset Management M.F.M.C.), or send a fax at +30 210 326 6506, or via post using the address Stadiou 40, 105 64 Athens (Company head office) and all Alpha Bank branches (main distributor).
